| Serial No. | CHAPTER 5 : RISK MODEL | ICAI Study Material Page No. | Extra Reference In ICAI Material | Past Paper /Mock Paper (Book 1) | Book 2 |
|---|---|---|---|---|---|
| 1 | VALUE AT RISK (VAR) | 5.1 | | | |
| 1.1 | Calculating VaR | 5.2 | | | |
| | (a) VaR Conversions | 5.3 | | | |
| | (b) VaR Parameters | 5.4 | | | |
| | holding period, confidence level | 5.2 | | | |
| | model validation or back testing | 5.4 | | | |
| 1.2 | VaR Methods | 5.4 | | | |
| 1.2.1 | Delta – Normal Method (Linear Method) | 5.4 | | | |
| | Limitations of the delta-normal method | 5.4 | | | |
| | Change in portfolio value with respect to change in risk facto | 5.4 | | | |
| 1.2.2 | Full Revaluation Method | 5.4 | | | |
| | (a) Historical Simulation (b) Bootstrap Simulation (c) Monte Carlo Simulation | 5.5 | | | |
| 1.3 | Coherent Risk Measures | 5.5 | | | |
| | • Subadditivity • Homogeneity • Monotonicity • Risk free condition | 5.6 | | | |
| 1.4 | Expected Shortfall | 5.6 | | | |
| | advantages: | 5.6 | | | |
| | expected tail loss, conditional VaR, tail VaR, | 5.6 | | | |
| 1.5 | Limitations of VaR | 5.7 | | | |
| | (a) VaR uninformative of tail losses | 5.7 | | | |
| | (b) VaR can create perverse Incentives Structures | 5.7 | | | |
| | (c) VaR can discourage diversification | 5.7 | | | |
| | (d) VaR not sub-additive | 5.7 | | | |
| 2 | STRESS TESTING | 5.7 | | | |
| 2.1 | Role of Enterprise wide Stress Testing (Stress Testing why?) | 5.8 | | | |
| | • Binding Constraint • Management attention • Intuition • Transparency • Consistency | | | | |
| | Various Reasons for incorporating stress testing results into a broader set of such risk and business applications. | 5.8 | | | |
| | Should risk appetite be articulated based upon tolerances in a stress environment? | 5.8 | | | |

| Serial No. | CHAPTER 5 : RISK MODEL | ICAI Study Material Page No. | Extra Reference In ICAI Material | Past Paper /Mock Paper (Book 1) | Book 2 |
|---|---|---|---|---|---|
| | Should capital requirements from stress testing be used for performance management or loan pricing? | 5.8 | | | |
| 2.2 | Applications of Stress Testing | 5.8 | | | |
| | Examples of extended uses of stress testing | 5.8 | | | |
| | • Risk Reporting | 5.8 | | | |
| | • Strategic Planning • Risk Appetite • Limits | 5.9 | | | |
| | banks are using stress testing to inform capital allocation, credit portfolio structuring, performance measurement and management, pricing and original strategy. (*Uses Description Key Challenges*) - Table. | 5.9 | | | |
| 2.3 | Stress Test Process | 5.10 | | | |
| | Risk & Capital Decision Process (Diagram) | 5.10 | | | |
| 3 | SCENARIO ANALYSIS | 5.11 | 2.9, 2.11, 9.21 | | |
| 3.1 | Categories of Stress Scenarios | 5.11 | | | |
| | • Normal Stress Scenarios (The occurrence of these scenarios can be once or twice in ten-year period) | 5.11 | | | |
| | • Severe Stress Scenarios (These are scenarios that one would expect only once or twice in a professional lifetime.) | 5.11 | | | |
| | • Near-Default Stress Scenarios (The global financial crises that began in late 2008 falls into this category) | 5.12 | | | |
| | • Stress to Default Scenarios (Reverse Stress Test Scenarios) | 5.12 | | | |
| 3.2 | Scenario Selection | 5.12 | | | |
| 3.3 | Drawbacks of Scenario Analysis | 5.12 | | | |
| 3.4 | Basel Committee on Banking Supervision (BCBS) Principles for Sound Stress Testing Practices and Supervision (21 guidelines) | 5.13 | | | |
| 4 | COUNTRY RISK | 5.14 | | | |
| 4.1 | Types of Country Risk (FPI , FDI) | 5.15 | | | |
| 4.1.1 | Political Risk | 5.15 | | | |
| | (i) Nationalisation or Expropriation Risk (ii) Exchange Control Risk (iii) Taxes, Rule and Regulation Risk (iv) Inefficient Legal System (v) Repudiation of Contracts (*also called indirect expropriation risk.*) | 5.15 | | | |
| 4.1.2 | Financial and Economic Risk | 5.15 | | | |
| | Sovereign Risk i.e. default in repayment of borrowing | 5.15 | | | |

| Serial No. | CHAPTER 5 : RISK MODEL | ICAI Study Material Page No. | Extra Reference In ICAI Material | Past Paper /Mock Paper (Book 1) | Book 2 |
|---|---|---|---|---|---|
| | To identify such types of risk well in advance following economic variables can be used | 5.15 | | | |
| 4.2 | Country Risk Management Process | 5.16 | | | |
| | risk management process involves the following steps | 5.16 | | | |
| 4.3 | Country Risk Assessment Tools | 5.16 | | | |
| 4.3.1 | Qualitative Tools | 5.16 | | | |
| | Numeral Coding, Colour Coding, Combination of Numeral and Colour | 5.16 | | | |
| | Other Methods | 5.17 | | | |
| | (a)  Grade  Based  Rating (b)   Event Driven | 5.17 | | | |
| 4.3.2 | Quantitative Tools (Table) - Index ,  Basis | 5.17 | | | |
| | 1. Corruption  Perception Index | 5.17 | | | |
| | 2. Democracy Index | 5.17 | | | |
| | 3. Freedom in the world | 5.17 | | | |
| | 4. Gini Coefficient | 5.17 | | | |
| | 5. Global Peace Index | 5.18 | | | |
| | 6. Human Development Index | 5.18 | | | |
